PROFILE

Drives product quality through technical clarity, thoughtful execution, and end-to-end ownership. Combines frontend leadership with deep backend understanding to deliver systems that scale, integrate cleanly, and elevate user experience. Brings focus, speed, and precision to complex problems turning ambiguity into impact.

SKILLS

Typescript, Javascript	Nextjs, Reactjs, Tailwind CSS, SASS
Javascript, Typescript, Nodejs	Node.js, Express.js, Git, GitHub

PROFESSIONAL EXPERIENCE

BACKEND ENGINEER, ETHEREA   07/2024 – Present
Nigeria

- **Developed RESTful APIs** for core fintech features like savings, withdrawals, and transaction history, backed by efficient MongoDB schema design and indexing.
- **Implemented real-time data syncing** using WebSockets to deliver instant updates on hotel booking updates.
- **Built secure authentication flows** with JWT and refresh tokens, including role based access and single-device login enforcement.
- **Applied key security practices** such as rate limiting, input validation, CORS policies, and HTTPS enforcement to protect APIs from abuse and attack.

FRONTEND ENGINEER, HAPTLE   09/2024 – present
Lagos, Nigeria

- **Engineered a multi-step vendor onboarding flow** ("Become a Vendor") using TypeScript, Next.js, and Zustand, enabling a seamless UX and improving conversion through modular, scalable component architecture.
- **Implemented real-time platform updates** with Socket.IO 🔗 , delivering instant notifications for bookings, messaging, and system events, significantly enhancing responsiveness for vendors and users.
- **Developed advanced search filters and dynamic user settings** (withdrawal, dark mode, language) with optimized state handling and UI abstraction resulting in a highly customizable and performant frontend experience.

FRONTEND ENGINEER, MONIETAB   01/2024 – 07/2025
Nigeria

- **Architected scalable, component-driven applications** using React and Next.js, incorporating SSR, code splitting, and lazy loading to optimize performance and SEO.
- **Implemented robust state and data management** with Redux Toolkit, React Query, and Zustand, ensuring efficient API interactions, real-time updates, and offline resilience.
- **Led the development of modular, accessible UI systems** with Tailwind CSS and Framer Motion, promoting design consistency, maintainability, and delightful user experiences.
- **Integrated secure, token-based authentication flows** (JWT/OAuth) with dynamic routing, protected pages, and form validation to ensure both UX and data integrity.

EDUCATION

B.Sc Biochemistry and Molecular Biology, Obafemi Awolowo University   2019 – 2024
Nigeria
